

# CITRINE TO PC WITH ARENA

The Novag Citrine is compatible with ARENA, a Graphical User Interface (GUI) for chess programs by MARTIN BLUME. Please refer to the following website for copyright and licensing prior to usage: <http://www.playwitharena.com/directory/copyright.htm>

1. Go to <http://www.playwitharena.com/>

The screenshot shows the website for Arena 1.99beta5, a chess GUI. The page layout includes a top navigation bar with links to various engines like WB Leo, Superchessengines, Winboard, Shredder, Ed Schröder, UCI Patrick, Exactchess, GSEI, DGT, Schachwerkstatt, and Jim Ablett. A left sidebar contains a navigation menu with items like Index (1024x768), Bookmark, Features, Copyrights, Helping Persons, Arena Downloads, Arena Mainbook, User Files, Engines, Partners, Engines, Links, News-Ticker 155, Reviews, Interv., Arena Forum, Contact form, and Bugreport form. The main content area is titled 'News-Overview' and includes a 'News-Ticker' and a section for 'User Files, Engines' with a list of updates from 2007 to 2008. A central image displays the Arena GUI interface with a chessboard and engine settings. On the right, a vertical list of supported engines is shown: DGT, NOVAG Citrine, UCI I, II, Chess960, WB I, II, Autoplayer, and ICS. The bottom of the page features a footer with the text: 'Arena is a FREE available Graphical User Interface (GUI) for chess programs (engines) by Martin Blume. Arena runs on Win95, NT4 or higher Microsoft OS versions. Arena is compatible to Winboard protocol I, II and UCI protocol I, II. Furthermore compatible to...'

2. Download the latest software from the ARENA DOWNLOAD site: <http://www.playwitharena.com/directory/download.htm> and follow their instructions.
3. Once downloaded save the copy in an easily accessible place, such as the DESKTOP.

4. Set up your Citrine:

Connect your Citrine to your PC,

plug the chessboard into the mains,

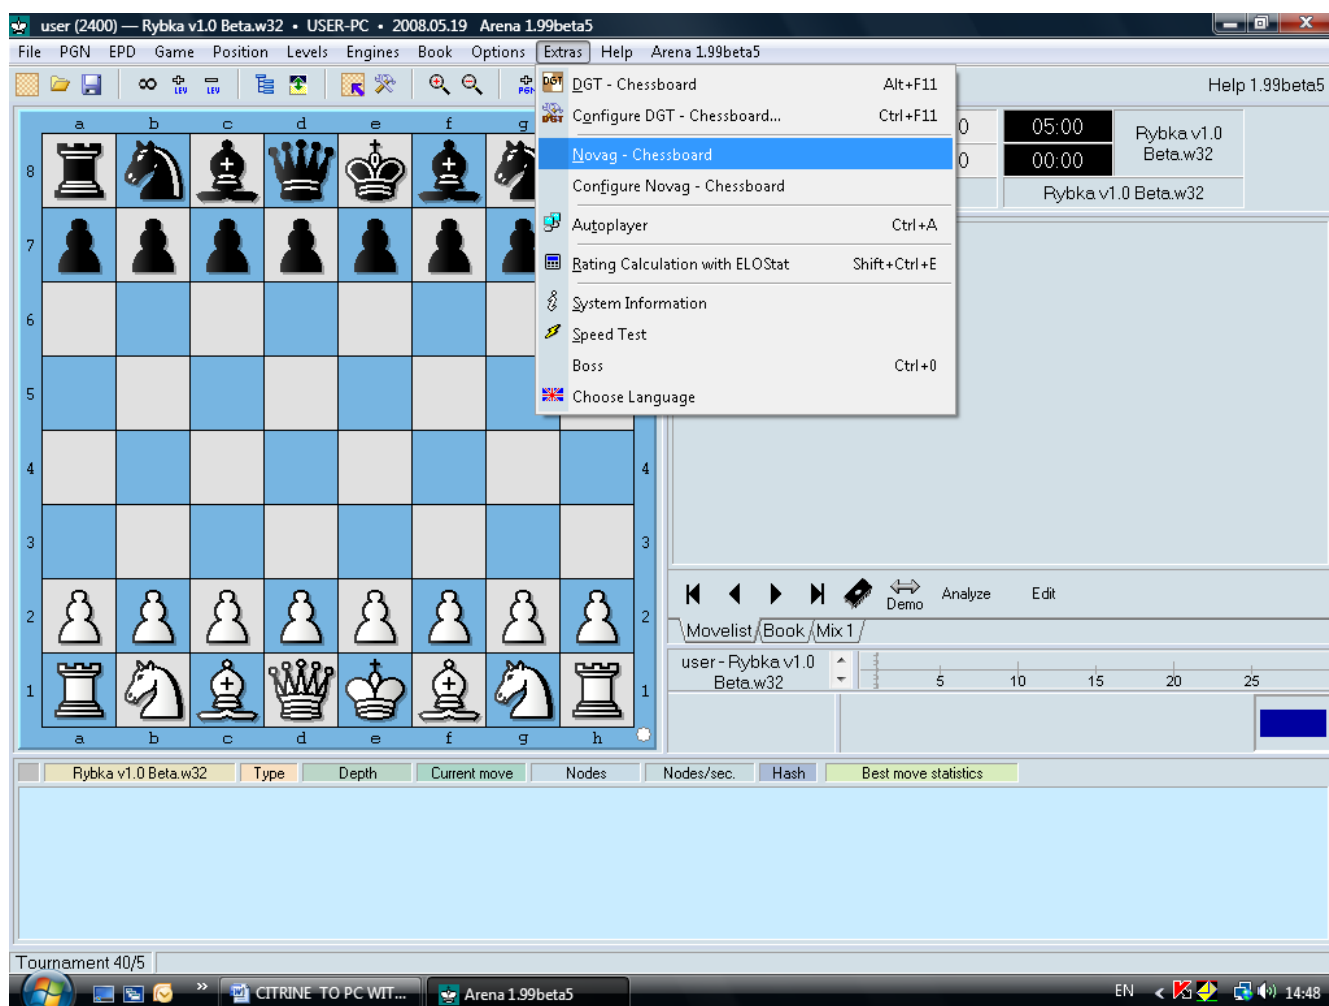

set the chess pieces up and

turn the Citrine ON.

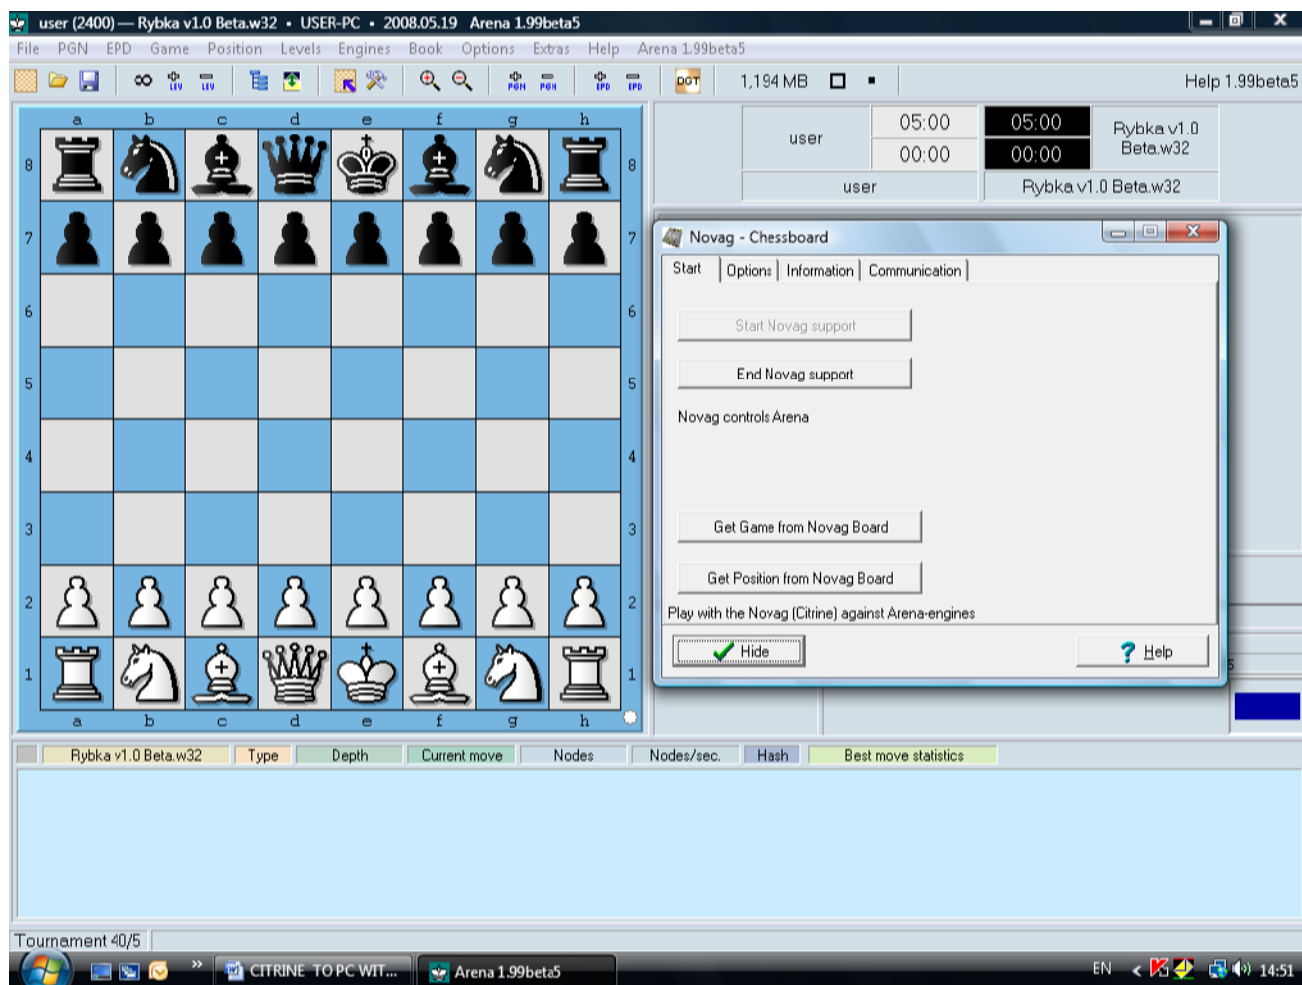

5. Double click the ARENA program to open.

6. Once opened, click EXTRAS

7. Under EXTRAS, click NOVAG-CHESSBOARD

Then the following window will appear:

Click on “Start Novag Support” and wait until the program has registered your Citrine. Once registered you can hide this window.

8. The ARENA software is now ready to display, print and save your game: Each time you make a move (or make a move for the Citrine), that move will be displayed in the ARENA GUI as well as on your chessboard.

## TROUBLE SHOOTING

In the event that moves are not correctly displayed on the board, i.e. the LEDs don't light up and the board does not allow you to make the move, please go to Extras | Configure Novag – Chessboard | Other: **check OFF** Flash move (Send Twice) box.
